

# Grief Support for Veterinary Hospitals

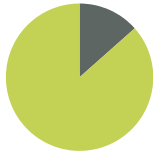

**As a veterinary professional, you're not only caring for animals but also for the humans who love them.**

Help Texts delivers personalized, year-long pet loss support via text message, individualized based on cause of death, type of pet, and more. Texts are curated from the wisdom of over 100 world-leading experts, including therapists, and palliative veterinarians. Every message is carefully crafted to provide hope, comfort, and practical support, and is tailored to each loss.

countries

**Help Texts makes it easy to extend care beyond the clinic, with expert grief support for bereaved pet owners.**

## We Make It Easy To

### **STRENGTHEN CLIENT RELATIONSHIPS**

- Continue caring for pet owners after their pet is gone
- Honor meaningful dates
- Differentiate your practice with compassionate support that extends beyond goodbye and surpasses industry norms

### **REDUCE OPERATIONAL STRAIN**

- Provide exceptional grief support without increasing your team's workload
- Ease emotional demands on staff without sacrificing client care
- Reduce turnover and stress-related burnout in emotionally heavy moments

## Tailored For Each Pet Owner

With deep experience supporting people after a human death, Help Texts partnered with palliative care veterinarians and grief experts to craft compassionate support to help pet owners navigate the emotional aftermath of loss.

Whether the loss was sudden or expected, we personalize supportive text messages based on:

- Type of pet (dog, cat, bird, horse, etc.)
- Cause of death (illness, accident, euthanasia, etc.)
